Over Sea, Under Stone

This book is about... 3 children going on holiday.
They think it is just going to be a holiday but it
turns into an adventure. They look for an ancient guide
while others seek it as well, but it gets sent to a
MUSEUM.

I think you should read this book because...

It was funny, scary, wild and going on and on and on
about one bit all at once! I think it is suitable
for around 7 and over.
