This book is about... ~~a~~ dwarf who loses his treasure and 11 more of them and a hobbit ~~that~~ helps them find it. A hobbit is a tiny, hairy, man like ~~man~~ creature. On the dwarves's and hobbits journey to find it, they encounter goblins, wargs and dragons and meets ~~the~~ again at the Battle of Five armies. Sadly, one of the dwarves died so the Battle's about who gets the treasure.

I think you should read this book because... I didn't want to put it down and it is written humorously because the hobbit speaks in Riddle which dragons can solve. J.R.R. Tolkien has written so well I want to read the Lord of the Rings.
